

FRESH FROM THE SEA

Fish Farming

Investing opportunity to develop fish farming
and process facility

Ali Khalid

Maldives has clear pristine water and large lagoons, naturally conducive for fish farming. The investment is modest and return quick. The market for the product is around the world and the growing tourism industry itself is a market of its own.

Fresh From the Sea/ Maldives

Introduction

Fulhangi Falhu is a lagoon leased from the Maldivian government for a 20 year period. The lagoon is leased for fish farming and mari- culture purpose. This is one of the best lagoons in the Maldives to exploit fish farming.

The lagoon area is 3,400,000 sq meters.

The lagoon accompanies sufficient land area for inland requirement such as laboratory, processing and accommodation.
